

REMARKS

Upon entry of the amendments herein, previously allowed claims 32-47 remain pending in the application. Of these claims, 32, 37, 42 and 44 have been further amended herein. No new matter has been introduced by these amendments.

Prior to allowance of this application, the Examiner called with proposed amendments to claims 32, 37, 42 and 44 that would lead to allowance of the application. Following Applicants' agreement to these amendments, the application was allowed and a Notice of Allowance, with an Examiner's Amendment, was issued. However, the Examiner's Amendment was incomplete and introduced a grammatical error into the amended claims, which error Applicants wish to correct via the amendments herein. As amended herein, the beginning of step (a) of these claims recites "providing an isolated host cell." Clearly, no substantive change would be introduced by these amendments; favorable consideration and entry thereof are respectfully requested.
